"I've played with all of them a hundred times Gran," he moaned. "It's raining and I've got nothing to do. When is Mum coming home?"

Gran put her arm around Dan. "Now, you know your mum has a lot of work on at the museum. She'd love to spend more time with you, but..."

"I know," interrupted Dan.

Time to play Snakes and Ladders!

You will need:

- a counter (you could use objects such as cereal or a piece of lego)
- a dice (please use this link if you do not have a dice)
- <https://www.online-stopwatch.com/chance-games/roll-a-dice/>

Roll the dice and take it in turns to answer the calculation you land on.

If you land on the bottom of a ladder, you can go up it.

If you land on a snake's head, you have to go down the snake.
