

Reading

Just then Gran jumped up and from the way her face lit up, Dan knew she had an idea. "I've got just the job for you on a rainy day. It's time you helped me clear out the attic!" Dan moaned but he knew that, once Gran had an idea, there was no use arguing with her.

Talk time: Discuss with a family member why Dan knew there was no use arguing with gran about her idea.

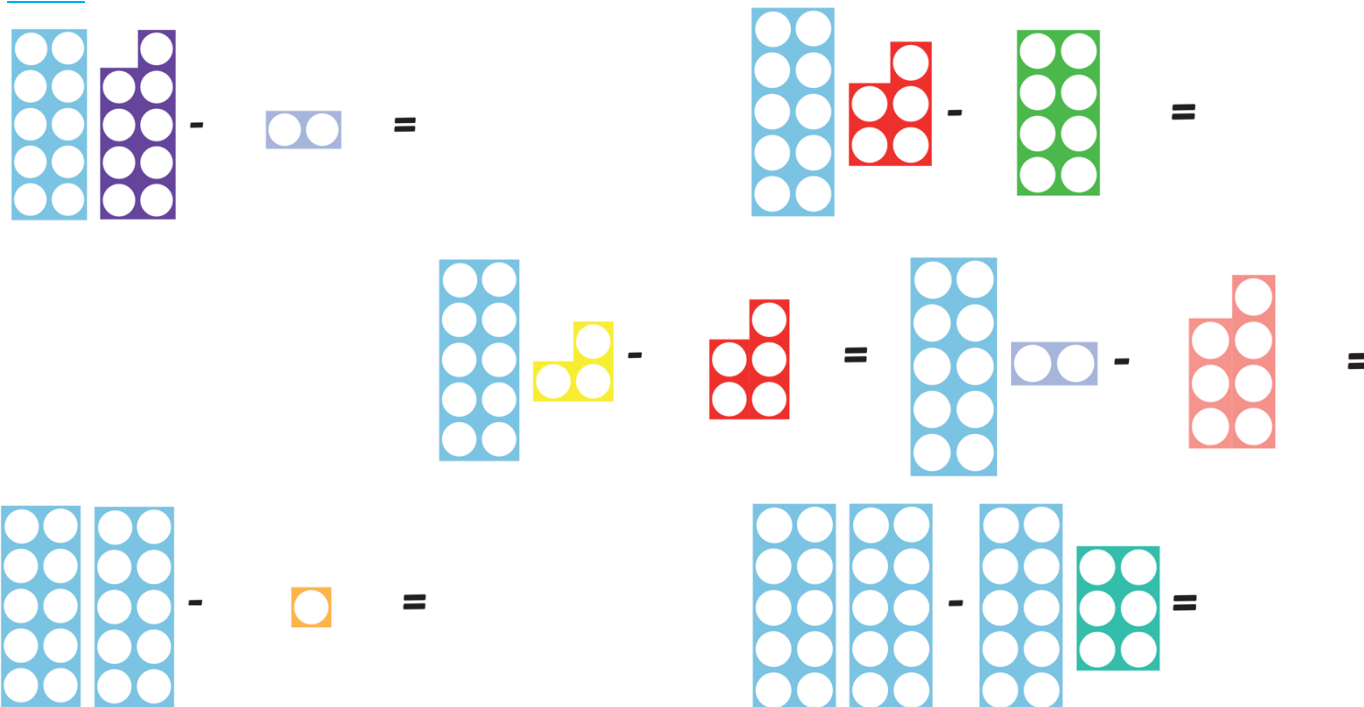

1. How did Dan know his gran had an idea?
2. What does gran mean when she says '*clear out the attic*'?
3. True or False: *Dan was excited to go into the attic.* How do you know?
