

Year 4 children's newsletter

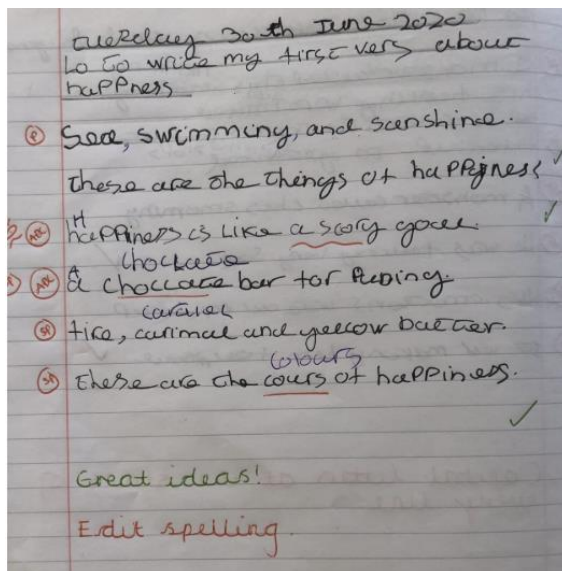

Friday 3rd July 2020

Hi there Year 4,

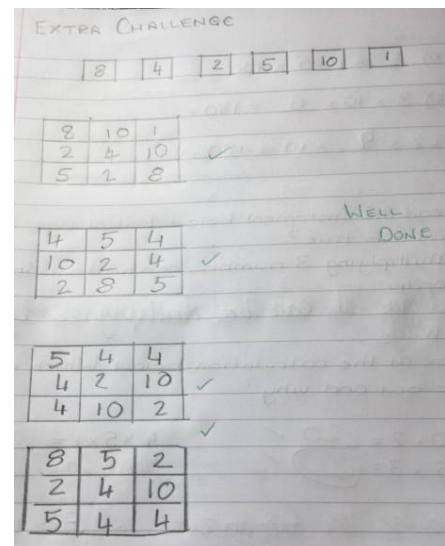

We hope you are all well.

It has been great to see you all having a go at the home learning activities. We hope the loom videos have been helpful by giving a little guidance to the learning. It is really important that you continue to practise the skills we have learnt during Year 4 so that you are confident when moving into Year 5.

Let's have a look at some of the amazing examples we have been sent in by you:

Jayden L has created a fabulous second verse for his 'The Colour Monster' poem. He has used poetic devices of alliteration, similes, metaphor, repetition and lists.

Cassie G has been hard at work with her maths challenges this week! Great understanding of multiplying 3 numbers Cassie!

We are looking forward to sharing some fabulous examples of your home learning next week. It would be amazing to share some of your completed poems or even send in a video of you performing them!

Take care and hopefully we'll see you soon. 😊

Miss Butcher and Ms Baldrian 😊
